

6th European Climate Change
Adaptation Conference 2023

Actionable Knowledge for a
Climate Resilient Europe

June 19th - 21st

Dublin, Ireland

Communities of Practice: Engagement strategies

Funded by
the European Union

This project has received funding from the
European Union's Horizon Europe research and
innovation programme under grant agreements
No. 101081460 and No. 101056933

Climateurope2

Communities of practice

“Group of people who share an interest for something that they practice, and who learn how to do it better through regular interaction”

(Wenger 1998)

Funded by
the European Union

ASPECT

Facilitating seamless climate adaptation

- Adaptation-oriented
- Seamless predictions (climate predictions+projections)
- European climate
- Develop a delivery system

ASPECT is a Horizon Europe Research and Innovation Action that will produce and improve **seamless climate predictions** covering the **next 30 years** and will embed these predictions into societally important climate change adaptation decisions over a range of sectors, time scales, spatial scales and decision making levels.

ASPECT will provide a delivery system for climate prediction information **tailored** taking into account **user requirements**.

Led by BSC (support from UK MetOffice)
11 partners
Jan 2023 - Dec 2026

Climateurope2

Supporting and standardising climate services in Europe and beyond

Climateurope2 is a Horizon Europe Coordination and Support Action that will run from 2022-2027. The project aims to support and develop the community of climate services in Europe. It also aims to increase the uptake of climate services and their standardisation process. Climate services are information and knowledge that can help people and organizations deal with the impacts of climate variability and climate change.

Led by BSC
33 parties
Sep 2022 - Feb 2027

ASPECT communities of practice

Broad group of stakeholders targeted for **communication, dissemination and exploitation** activities.

ASPECT communities of practice

Broad group of stakeholders targeted for **communication, dissemination and exploitation** activities.

User Forum participants

Multi-sector user forums

Collaborative spaces to share knowledge, experiences and challenges related to climate prediction services.

Researchers, purveyors, (potential) users and beneficiaries of climate predictions from **multiple sectors**.

Explore user requirements and use cases.

ASPECT communities of practice

Broad group of stakeholders targeted for **communication, dissemination and exploitation** activities.

User Forum participants

‘Super users’ - Working intensely with users:

1. Codorniu (Wine company)
2. ClearGlass (Analytics for pension sector)
3. The Emilia-Romagna region, Italy (Mission Adaptation)
4. 2 more to be recruited via open competition!!

COMPETITION

BECOME A 'SUPER USER'

We are looking for two organisations involved in societally important sectors to join our project!

- ✓ Make better informed decisions
- ✓ Develop your understanding on extreme weather and climate risks
- ✓ Co-produce useful & usable seasonal-to-decadal predictions

Apply Now!

Funded by
the European Union

 ASPECT

BECOME A 'SUPER USER'

Apply Now!

TIMELINE

June 2023 -
Application Open

9 Oct 2023 -
Closing Date

Oct / Nov 2023 -
Interviews with
shortlisted applicants

December 2023 -
New Super Users
announced!
