Climate Forecasting Unit

Support Staff

I have worked in the private sector for many years. I was always a dedicated part of support staff in different companies and different roles such as EA, Team assistant and Office manager. I enjoy helping people to do their daily job that is why I dedicate my career in the support staff departments.

At IC3 I am a secretary to the CFU department and focus on the SPECS project.

OTHER:

I enjoy being in the nature, reading and travelling.
